

English Dexway Certificate - Level B1 - Course 1

Sku: PC261

Horas: 80

Formato: HTML

OBJETIVOS

English Dexway Certificate - Level B1 - Course 1 provides students with the necessary tools to communicate in a range of everyday situations which require a largely predictable use of language. At this level, learners can understand texts in more detail and can act with a degree of independence. This course contains speaking and writing assignments.

Once the course has finished, students will be able to understand the main points of clearly expressed standard input on familiar matters regularly encountered in work, school, leisure and other daily situations. They can also deal with most situations likely to arise while travelling in an area where English is spoken and produce simple connected texts on topics that are familiar or of personal interest. Students also learn to describe experiences, dreams, hopes and ambitions.

Throughout this course students learn to describe continuous actions in the past, express duration, obligation and conditions, narrate stories, explain causes and consequences, define jobs and objects, make suggestions, ask for confirmation and go shopping. They also study how to make predictions, offers, talk on the phone, change money, talk about prices, express their opinion on general topics, express probability, emphasise the result of an action and ask for directions.

Vocabulary studied through the course includes: travelling by plane and other means of transport, nature and the countryside, landscapes, parks, camping and accommodation, parts of the body, jobs and professions, hotels and hostels, food and restaurants. Vocabulary related to telephone communication, monetary exchange, special events, cooking, adjectives, medicine, hospitals and feelings is also covered.

Students practice all the language skills: writing, speaking, listening and reading through a series of interactive and contextualised exercises. They learn through tasks that include real-life dialogues, word/sentence – picture association and video dubbing exercises. The last lesson of each unit has some test exercises so that students are aware of their progress.
