OBJETIVOS

English Dexway Certificate - Level B2 - Course 2 provides students with the necessary tools to communicate and be able to use a wide range of structures with ease and fluency. Students become aware of the significance of register and so may begin to adapt their language use to a variety of social situations. They are also provided with the tools to produce a variety of types of texts and utterances. This course contains speaking and writing assignments.

Once the course has finished, students can understand a wide range of demanding and longer texts and recognise implicit meaning. They can also express ideas fluently and spontaneously without much obvious searching for expressions and use language flexibly and effectively for social, academic and professional purposes. They can produce clear, well-structured, detailed texts on more complex subjects, showing controlled use of organisational patterns, connectors and cohesive devices.

Throughout the course students learn to master different language functions such as: expressing quantity, shopping in a supermarket, giving orders, describing ability, expressing obligation, lack of obligation, future possibility, purpose, giving advice, making promises, suggestions, offerings and asking polite questions. Students also learn some basic stage terminology, talk about films and animals, describe objects, express real and unreal conditions, explain processes, describe people, scenes, images and places as well as reporting direct speech and thoughts. Vocabulary topics covered in this course include: good luck charms and superstitions, fruit and vegetables, films, modelling, machines and machinery, agriculture, mining and industry, personal appearance and location, vehicles and driving, spaces and places, parapsychology, horoscopes, urban places of interest, light and colour, artistic and photographic terms. Students also learn idioms, specific terminology for letter writing and contracts and differences in British and American English.

Additionally, in this course students learn vocabulary and specific expressions related to going to the optician's and some vocabulary related to business. All these lessons include a series of typical situations and dialogues that help students contextualise and learn vocabulary by heart.

Students practice all the language abilities: writing, speaking, listening and reading through a series of interactive and contextualised exercises. They learn through tasks that include real-life dialogues, word/sentence – picture association and video dubbing exercises. The last lesson of each unit has some test exercises so that students are aware of their progress.

CONTENIDOS

Unit 1

Getting a Theatre Group Together

Aims: To expand the structures and vocabulary covered in previous blocks through a series of interactive exercises, such as word/sentence-picture association, listening comprehension with short, realistic dialogues, and student-led listening practice with the vocabulary items, where students listen and repeat the presented sentences.

Structures and Functions: Presentation of target vocabulary through contextual sentences.

Vocabulary: Introduction to new vocabulary items such as "variety," "diagram," "lecturer," "to look up," "to fetch," "gesture."

Activities: Association of sentences and words with corresponding pictures and a multiple-choice listening comprehension with a real-life dialogue.

Studying Must Be Learned

Aims: To expand the structures and vocabulary covered and to present and practice grammar through interactive exercises such as reading, listening and answering questions, gap-filling, etc.

Structures and Functions: Full tense review of present tenses, past tenses, perfect tenses, and future tenses, as well as uses of "get."

Vocabulary: Useful expressions such as "on the dole," "in a rut," "to get the gist," "to get rid of," "to split up," "to take your mind off," "to count someone in," "on the contrary," and words related to non-verbal communication and language learning.

Activities: Reading and listening comprehension, finding synonyms, true or false listening comprehension, error detection and correction.

Body Language

Aims: To expand, consolidate, and review the structures and vocabulary covered in previous lessons through exercises like pronunciation practice with listen-and-repeat activities, gap-filling, dubbing the film, etc.

Structures and Functions: Review of present tenses, past tenses, perfect tenses, future tenses, uses of "get," and prepositions collocated with verbs.

Vocabulary: Revision of useful expressions and phrasal verbs covered, such as "on the dole," "in a rut," "to get the gist," "to get rid of," "to split up," "to take your mind off," "to count someone in," and "on the contrary."
