

English Dexway Academy with AI Role-plays - B2.1

Sku: PC247

Horas: 40

OBJETIVOS

The course content remains functional and focused entirely on improving learner independence in all areas, especially in real-life situations such as work and leisure, house and home, films and habitual actions etc. In this course the learner will continue to notice an increased confidence when faced with basic functions and will be able to read an English or American newspaper with little difficulty, follow conversations in English with native speakers and participate in more complex exchanges. In terms of grammatical structures there will be continued revision and extension of the structures covered with emphasis on parts of the language such as phrasal verbs, idiomatic expressions and the differences between British and American vocabulary. As with the other levels on the course, there is frequent pronunciation practice and the learner has exposure to long and short sounds, correct regular past tense endings, minimal pairs, elision as well as general vocabulary and sentence level practice. The use of a variety of exercises encompasses different learner styles as well as guaranteeing thorough coverage of the topics covered. AI role-plays offer free practice with the topics covered - giving learners the opportunity to participate in spontaneous speaking activities, replicating realistic exchanges.

CONTENIDOS

Unit 1:

Doing Market Research

Aims:

- Introduce and practice topic-related structures and vocabulary.
- Activities include image association, listening comprehension, and vocabulary-led exercises.

Vocabulary:

- Free time, games, expressions: "to have a rest", "to get ready".
