

English Dexway Academy with AI Role-plays - C1.2

Sku: PC251

Horas: 40

OBJETIVOS

The course content remains functional and focused entirely on improving learner independence in all areas, motivating the learner to become conversant on subjects such as cinema, expressing ability, obligation and prohibition as well as presenting and interpreting statistics. In terms of grammatical structures there will be continued revision and extension of the structures in all tenses. Productive and receptive skills are stretched with more phrasal verbs, idiomatic expressions, the different verbs followed by gerunds or infinitives, expressing future possibility, and giving opinions. As with the other levels on the course, there is frequent pronunciation practice and the learner has exposure to long and short sounds, vowel sounds, elision, homophones as well as general vocabulary and sentence level practice. In terms of conversation, the learner can now approach most situations with little or no preparation. The use of a variety of exercises encompasses different learner styles as well as guaranteeing thorough coverage of the topics covered. AI role-plays offer free practice with the topics covered - giving learners the opportunity to participate in spontaneous speaking activities, replicating realistic exchanges.

CONTENIDOS

Unit 1

Shopping at the market

Aims: to learn and acquire the structures and vocabulary related to the topic through a series of interactive exercises such as word/sentence-picture association, listening comprehension with short, realistic dialogues and student-led listening practice with the vocabulary items.
