OBJETIVOS

This course for advanced learners presents more challenging aspects of the English language, with content at the C1.2 level of the CEFR.

By covering the grammar and vocabulary needed to talk about percentages, fractions and figures in general, the world of work and alternative medicine, the course gives learners the opportunity to start using the language straight away.

Learners will also see new phrasal verbs, review narrative tenses, practise using compound nouns, as well as revise gerunds and infinitives.

Learners participate in role-play and conversation activities which encourage them to use the language spontaneously and meaningfully.

The writing and speaking assignments that follow offer the chance to use the language in a range of situations.

The student needs to follow the instructions to create short written and spoken texts which allow them to reuse the new language independently
